

Day 2 -

Read a **Bible** story with your child.

**Reading** - Go on [Starfall.com](http://Starfall.com). Do some ABC activities.

Click on the calendar and make a calendar.

Make a snowman outside or take a roll of toilet paper and wrap it around someone in your family to make an indoor snowman. Dress up your snowman with hat, scarf, etc.

Have your child draw a picture of the snowman and write about it.

**Science** - Be a scientist and predict what will happen.

Put an ice cube in a glass on the kitchen counter and an ice cube in a glass outside. What will happen to each?

When check your ice cubes every 15 min. for 1 hour and see if your predictions were right? Draw a picture of the ice in each glass at the beginning of one hour and at the end of 1 hour.

**Writing and Math** - Make dominos using 3x5 (or similar size) cards and mini marshmallows (mini snowballs). Write a numeral from 1-10 on one side and glue that number of marshmallows or buttons or anything white and round on the other side.

Country my ancestors came from.

(color in place on map.)

A holiday we celebrate \_\_\_\_\_
